Our Advantages

Worry-free
after-sales service

13+ years
LED light manufacturing
and sales experience

Support of free
samples of new products.

We have strong product development ability - there are **11** engineers and **2** designers whom have experience in designing and developing products for well-known international companies.

- Stable central positioning shaft
- 100% copper
- Imported lubricant
- Advanced bearings
- Machine winding
- Top quality material

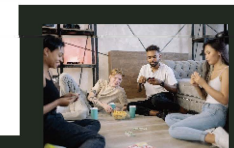

CEILING FAN LIGHT

- Low Noise
- Intelligent Control
- Multi-Function

Speed 1 and 2
QUIET, BREEZE

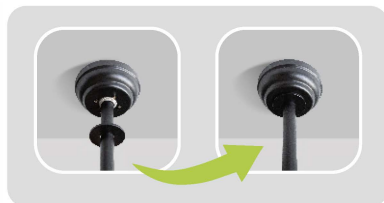

Speed 5 and 6
STRONG WIND

Speed 3 and 4
NATURAL WIND

PRODUCT ADVANTAGES

with decorative
cover to decorate the canopy

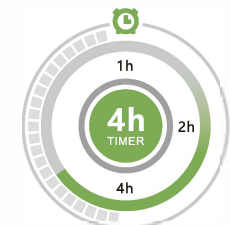

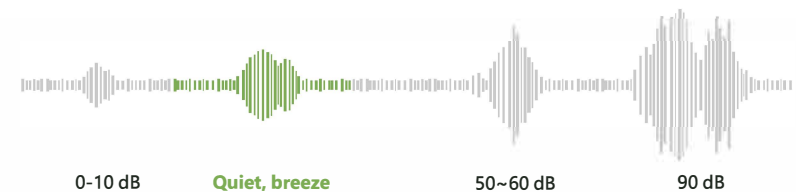

High precision machining of fan blades,
The weight difference between blades
is less than 3 grams

With lens-Higher luminous efficiency,
more uniform luminescence and safer

Good sealing-dust-proof and
suitable for damp location

Scheduled appointment

Innovative technology, energy saving
and power saving

CHARACTERISTIC

- With a contemporary look featuring high quality ABS blades.
- solid downrod bring safety installation
- Well painting finishes motor housing,with good anti-corrosion
- With Strong ABS blade, deliver strong power wind and Rotary stability and safety

Multi-Function:

Remote control - Turn on/of ceiling fan, 6 Speed Options, Reversible fan, vacation Mode, Breeze mode, light on/off, dimmable, 3CCT tunable (white, warm white & yellow) and 1H/2H/4H timing function.

ABS blade:

ABS reversible blade, smooth surface, Easy to clean.

Silent motor:

The motor is made of high-quality silicon steel sheet, which produces much less noise than ordinary ceiling fans. The decibel is 10-30 lbs without any noise.

Reversible switch:

Run the ceiling fan counterclockwise to stay cool in the summer, or run it clockwise to recirculate warm air and eliminate cold spots in the winter. Keep you comfortable year-round
